General warranties:

Biexo Inc. guarantees all their steel aboveground tanks for flammable and combustible liquids of TKB and REC series, (UL Listing(certification), Underwriter's Laboratories Inc., ULC S601, UL-142), if exclusively used for noncorrosive, stable flammable and combustible liquids that have a specific gravity not exceeding 1.0 in aboveground applications and installed in accordance with one of the following document: NFPA30, National Fire Code of Canada(part 4), CSA B139(installation Code for Oil Burning Equipment), CCME Environmental Code of Practice for Aboveground and Underground Storage Tank Systems Containing Petroleum and Allied Petroleum Products, or regulations of the appropriate authority having jurisdiction.

5 year warranty, against leaks caused by internal corrosion or caused by defects of manufacturing and/or materials (excluding the paint), as long as the tank has been maintained in good condition;

- tank's installation has to be above-ground and inside a building;
- The guarantee does not cover the installation of tank in a mobile location such as a vehicle;
- The guarantee does not cover a tank that was modified without a written agreement from Biexo Inc.

Biexo Inc. makes a commitment to respect the guarantee to their discretion according to one of the following manners:

- (1) Repair the tank, or;
- (2) Replace the tank, at the same address as the defective tank had been delivered, or;
- (3) Refund the original price, without any other responsibilities for the fees of work, handling charges or any other installation fees, consequent damage or other damage connected with the defective tank.

***** Any complaint in connection with the paint or the external appearance of the tank must be made in (15) days following the reception.**

This limited guarantee excludes expressly:

(a) Damage caused accidentally, abuse, carelessness, inadequate use, by any God's act, riot, flood or fire; (b) Damage caused by a tank which underwent non-authorized modifications or repairs which had an impact on its stability or its performance; (c) Damage caused by an inadequate use or a bad combination of the reservoir and its accessories; (d) Damage caused by one maintenance deficiency; (e) Of any defective connected with the installation, the deconnection or the dismantling of the tank; (f) Damage, repairs, not functioning or problems connected and caused in the tank further to a bad installation and/or an use.
